North Gem School District #149

INSTRUCTION 2440

Online Courses and Alternative Credit Options

In addition to regular classroom-based instruction, students may earn credit through the following means.

Virtual/Online Courses

The Superintendent is authorized to create a process for students enrolled in secondary schools to register for enrollment in online courses provided by accredited organizations. At a minimum, such process for registration for online courses shall be accommodated through the District's normal registration process. Any such registration requests shall be made no later than 30 days prior to the end of the term preceding the term in which online enrollment is sought.

Online courses may be counted as credit toward graduation.

<u>Correspondence Courses</u>

The District will permit a student to enroll in an approved correspondence course from an institution approved by the State Department of Education, in order that such a student may include a greater variety of learning experiences within the student's educational program.

High school students may earn, through correspondence, a maximum of four (4) units of academic credit to be applied toward graduation requirements. Only one (1) unit may be earned during any one school year.

Only courses offered by institutions recognized by the Board will be accepted. The express approval of the principal shall be obtained before the course is taken.

Credit for correspondence courses may be granted provided the following requirements are met:

- 1. Prior permission has been granted by the principal; and
- 2. The program fits the education plan submitted by the regularly enrolled student.

An official record of the final grade must be received by the school before a diploma may be issued to the student.
